

## **THEME -: HEALTH AND FITNESS**

**TITLE -: Orgnate**

**TEAM NAME -: Megalith**

**Idea** -: We have always seen people regretting that point in their life when they lose someone who is really close to them due to shortcomings of organs or irreplaceable aspects of body. Therefore, we came up with an idea for building a platform where a Recipient may post his requirements and a Donor ready to serve may help with the same. Donor may not only help with the organs but also with the resources he wants to viz., Blood Donation, Financial support etc. We tend to create an online site for executing our ideas.

**Future Enhancements** -: We tend to improve our platform by expanding its wings and dedicating it to more and more people by making them aware of its usefulness and importance in our lives.
